1. Applicant's arguments filed on 8/15/05 in response to the Restriction Requirement have been fully considered and they are persuasive. Therefore the Restriction Requirement is hereby withdrawn. Claims 1-25 are presented for examination. However, the application is in condition for allowance except for the following formal matters:

a) Applicant should change the title of the invention clearly indicating the invention to which the claims are directed. The examiner believes that the title of the invention is broad. A descriptive title indicative of the invention will help in proper indexing, classifying, searching, etc. See MPEP 606.01. However, the title of the invention should be limited to 500 characters.

b) The abstract of the disclosure is now limited to 150 words. Therefore, applicant should reduce the size of the abstract to 150 words. The words "means" and "said" should not be used in the amendment to the abstract of the disclosure.

c) Claim 23 is incomplete. Applicant should insert --.-- in line 4 after the word "controllers".

d) The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification. Furthermore, all claims should be revised carefully to eliminate all grammatical errors and antecedent basis problems. No new matter should be added.

2. The following is an Examiner's Statement of Reasons for Allowance:

The claimed invention is directed to "a method and an apparatus for handling interrupts". The examiner has done complete search and found no prior art of record, alone or in combination, teaches or fairly suggests, "responsive to receiving an interrupt signal, identifying a first interrupt server in the set of interrupt servers to handle the

Art Unit: 2111

interrupt, wherein the set of interrupt servers are linked in a circular list using a set of identifiers and sending the interrupt to a second server if the first interrupt server is unable to handle the interrupt" in combination with other claimed elements as claimed in independent method claim 1, at least similar limitations in independent claims 10, 13, 14 and 22. Dependent claims 2-9, 11, 12, 15-21 and 23-25 further limit the subject matter of the respective parent claims.

If applicants are aware of any better prior art than those of record, they must bring the prior art to the attention of the examiner. Applicants are reminded that each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in 37 CFR 1.56. Applicants are advised to submit any information material to patentability in accordance with 37 CFR 1.97 and 1.98.

Any comments considered necessary by applicant must be submitted in response to this office action to avoid processing delays. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

3. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS ACTION IS SET TO EXPIRE TWO MONTHS FROM THE DATE OF THIS LETTER.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant is urged to consider the references. However, the references should be evaluated by what they suggest to one versed in the art, rather than by their specific disclosure. The prior art submitted by applicant has been considered by the examiner and made of record in the file.

5. The drawings filed on 9/30/03 are acceptable by the examiner. However, direct any inquiries concerning drawing review by the USPTO draftsman to the Drawing Review Branch at (703) 305-8404.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gopal C. Ray whose telephone number is (571) 272-3631. The examiner can normally be reached on Monday - Friday from 8:00 AM - 4:30 PM.
